Catalog Description:	Software development tools and practices; debugging and testing; advanced language features; standard libraries; code management.												
Prerequisite:	Grade of C or better in CS 141 (CS 102)												

The lab assignments will be given out in lab and are due by 11:59 pm on Monday of the following week. Each lab assignment will count for 5% of the final grade. If more than 10 lab assignments are given, only the ten best assignments will be used for the determination of the final grade. **No late lab assignments will be allowed for this course.**

Programming Projects (BUT NOT LABS!) can be turned in late with the following late penalties: **(No late lab assignments will be accepted for this course!)**

- One Day Late: 10% Penalty
- Two Days Late: 20% Penalty
- Three Days Late: 40% Penalty
- Four Days Late: 80% Penalty
- Five Days Late: 160% Penalty

Saturday and Sunday combine to count as 1 day when determining a late assignment. All assignments (lab and programming) are to be turned in electronically. **Lab assignments will NOT be accepted late!!**

If you have any questions regarding how any assignment or test is graded and you think that you deserve more points than you received, you must see the instructor about this within one week of the time the assignment is first returned to the class. No claims, justifiable or not, will be considered after this dead line.

Attendance at class is up to the discretion of each student; however, each student is responsible for all information (notes, hand-outs, announcements, etc.) covered during class. You should ask fellow classmates for missed information, not the instructor or the TA.

No "extra" work is allowed to make up for poor performance. Any student caught cheating will receive an E in the course, and face possible dismissal from the University. Students are advised that it is a violation to copy, or allow another to copy, all or part of an exam or program. No incompletes will be given for poor performance in the course.

Because of SPAM, when sending email please include "CS 211" in the subject.
