

# NATASHA DEVROYE

---

- POSITION HELD** Associate Professor August 2015 – present  
Director of Undergraduate Studies August 2016 – present  
(Assistant Professor) (2009 – August 2015)  
Department of Electrical and Computer Engineering  
**University of Illinois at Chicago** *Voice:* (312) 996-1013  
851 S. Morgan St. (M/C 154) *Fax:* (312) 996-6465  
SEO Room 1039 *E-mail:* devroye@uic.edu  
Chicago, IL 60607-7053 USA *www:* <http://www.ece.uic.edu/Devroye>
- EDUCATION** **Harvard University** Cambridge, MA, US  
*School of Engineering and Applied Sciences* June 2007  
**Ph.D. in Engineering Sciences**  
Thesis: Information Theoretic Limits of Cognition and Cooperation in Wireless Networks  
Advisor: Professor Bahid Tarokh, *vahid.tarokh@duke.edu*
- McGill University** Montreal, QC, Canada  
*Dept. of Electrical and Computer Engineering* Winter 2002  
**B.Eng (Honours) in Electrical Engineering**  
GPA: 3.97/ 4.0, Specialization: Communications  
Thesis: Implementation of the image compression algorithm EBCOT in C++  
Advisor: Professor Fabrice Labeau, *fabrice.labeau@mcgill.ca*
- RESEARCH INTERESTS** I work in the area of network information theory, with a particular focus on determining the information theoretic performance limits of spectrum sharing and cognitive networks, interference networks, two-way networks, and relay networks. I have also recently become interested in radar signal processing, in particular motivated by cognitive radar and spectrum sharing between communications and radar. For more details on my various projects, please visit <http://www.ece.uic.edu/Devroye>
- RESEARCH EXPERIENCE** **University of Illinois at Chicago** Chicago, IL, US  
*Assistant / Associate Professor* January 2009 - May 2015  
Independent and collaborative research with colleagues, students, visiting scholars. Grant writing, graduate student supervision.
- Harvard University** Cambridge, MA, US  
*Lecturer/Post-doctoral Fellow* July 2007 - June 2008  
Independent and collaborative research with Harvard professors, students, visiting scholars. Organize weekly group seminars, invite and host speakers, aid in grant writing.
- Mitsubishi Electric Research Laboratories** Cambridge, MA, USA  
*Research intern* July 2006 - December 2006  
Headed new direction of independent research in MERL's Cooperative Communications project.  
Supervisor: Andreas F. Molisch, *molisch@merl.com*
- Intel Research** Santa Clara, CA, US  
*Summer research intern* June 2005 - August 2005  
Evaluated gains of cooperation in wireless 802.16 cellular networks.  
Supervisor: Sumeet Sandhu, *sumeet.sandhu@intel.com*

TEACHING  
EXPERIENCE

**University of Illinois at Chicago**

*Associate/Assistant Professor*

Chicago, IL, US  
January 2009 - present

- ECE 534, Elements of Information Theory, Fall 2017.  
(*Enrollment: 17. Completed evaluations: 15. Rate the instructor's overall teaching effectiveness. 5.0/5.0. Rate the overall quality of the course. 5.0/5.0*)
- ECE 341, Probability and Random Processes for Engineers, Fall 2016.  
(*Enrollment: 68. Completed evaluations: 48. Rate the instructor's overall teaching effectiveness. 4.04/5.0 Course difficulty, relative to other courses was. 4.52/5.0 (5.0 being most difficult)*)
- ECE 341, Probability and Random Processes for Engineers, Spring 2015.  
(*Enrollment: 58. Completed evaluations: 34. Rate the instructor's overall teaching effectiveness. 3.36/5.0 Course difficulty, relative to other courses was. 4.68/5.0 (5.0 being most difficult)*)
- ECE 534, Elements of Information Theory, Fall 2013.  
(*Enrollment: 19. Completed evaluations: 13. Compared with other instructors you have had at UIC, this instructor was 4.83/5.0*)
- ECE 341, Probability and Random Processes for Engineers, Spring 2013.  
(*Enrollment: 59. Completed evaluations: 27. Compared with other instructors you have had at UIC, this instructor was 4.27/5.0*)
- ECE 341, Probability and Random Processes for Engineers, Spring 2012.  
(*Enrollment: 37. Completed evaluations: 28. Compared with other instructors you have had at UIC, this instructor was 4.48/5.0*)
- ECE 534, Elements of Information Theory, Fall 2011.  
(*Enrollment: 11. Completed evaluations: 8. Compared with other instructors you have had at UIC, this instructor was 5.00/5.0*)
- ECE 531, Detection and Estimation Theory, Spring 2011.  
(*Enrollment: 6. Completed evaluations: 5. Compared with other instructors you have had at UIC, this instructor was 4.75/5.0*)
- ECE 534, Elements of Information Theory, Fall 2010.  
(*Enrollment: 8. Completed evaluations: 7. Compared with other instructors you have had at UIC, this instructor was 4.57/5.0*)
- ECE 531, Detection and Estimation Theory, Spring 2010.  
(*Enrollment: 6. Completed evaluations: 5. Compared with other instructors you have had at UIC, this instructor was 5.00/5.0*)
- ECE 534, Elements of Information Theory, Fall 2009.  
(*Enrollment: 16. Completed evaluations: 14. Compared with other instructors you have had at UIC, this instructor was 4.71/5.0*)
- ECE 531, Detection and Estimation Theory, Spring 2009.  
(*Enrollment: 5. Completed evaluations: 4. Compared with other instructors you have had at UIC, this instructor was 5.00/5.0*)

**Harvard University**

*Lecturer/Post-doctoral Fellow*

Cambridge, MA, US  
September 2007 - June 2008

- Applied Math 21a, Mathematical Methods in the Sciences, Fall 2007
- Applied Math 21b Mathematical Methods in the Sciences, Spring 2008

AWARDS AND  
SCHOLARSHIPS  
(NOT GRANTS)

- IEEE Senior Member 07/06/2016
- UIC College of Engineering 2013 Faculty Teaching Award 05/09/2013
- UIC College of Engineering 2012 Faculty Advising Award 05/04/2012
- UIC College of Engineering 2011 Faculty Research Award 02/18/2011
- Wallenberg Academy Fellow 2012  
*Prestigious 5 year fellowship (1,500,000 SEK / year for 5 years) awarded to 4 people in the field of Engineering by the Wallenberg Foundation, Sweden. Host institution Kungliga Tekniska Högskolan (KTH). Declined by Devroye.*
- UIC Researcher of the Year Award, ‘Rising Star’ category 2012  
*Sole university wide awardee for the Natural Sciences & Engineering Rising Star category. “The Rising Star award will be given to 5 UIC early career researchers who have demonstrated outstanding promise to become future leaders in their area of expertise.”*
- **Best paper award:** N. Devroye, and P. Popovski, “Receiver-side Opportunism in Cognitive Networks,” *International Conference on Cognitive Radio Oriented Wireless Networks and Communications (CROWNCOM)*, Osaka, June 2011.
- IEEE Communications Society Exceptional Reviewer Award 2011
- FCAR Doctoral Scholarship, Harvard University (*18% acceptance*) September 2004-June 2007
- FCAR Master’s Scholarship, Harvard University (*32% acceptance*) 2002-2004
- NSERC Scholarship, Harvard University, *declined* 2002
- James Mills Pierce Scholarship, Harvard University 2002 - June 2007
- McGill University Dean’s Honours List, Dr. Alfred S. Malowany Prize, McConnell Award, Nova Corporation Scholarship, Marian Daly Award, 1998-2002
- NSERC Undergraduate Research Award, McGill University Summer 2001

RESEARCH  
FUNDING

Over my 8 years at UIC I have brought **over \$3.5 million to UIC**, of which **my share has amounted to over \$2.1 million**. I have been PI on 5 of my 6 NSF grants (3 single-PI), 1 AFOSR grant (single-PI), and 1 Dynetics award (single-PI), and 3 internal UIC grants (all PI, 2 of 3 single-PI).

- *Under submission / review:* NSF CCF-CIF Medium (role: PI, \$1,200,000 for 4 years), and NSF CCF-CIF Small (role: sole PI, \$500,000 for 3 years), both submitted Fall 2017
- FY 2017 DoD Research and Education Program for Historically Black Colleges and Universities and Minority-Serving Institutions Equipment/Instrumentation 08/16/2016 – 08/15/2017  
 “Three birds with one stone: high-frequency instrumentation for semiconductor device, radar and communication system measurements.”  
 PI: Danilo Erricolo. Co-PIs: Natasha Devroye, Hulya Seferoglu, Besma Smida, Daniela Tuninetti, Mojtaba Soltanalian, Mitra Dutta, Michael Stroschio, Luchy Shi, Ahmad Salim  
 Total amount brought to UIC: \$598,317.66  
 Natasha Devroye’s share: 8% = \$47,865.41
- NSF EAGER-7630819. 01/01/2017 – 12/31/2019  
 “Understanding cooperation through the zero error relay channel.”  
 PI: Natasha Devroye. (sole PI)  
 Total amount brought to UIC: \$249,999  
 Natasha Devroye’s share: \$249,999
- UIC COE Seed Funding 08/16/2016 – 08/15/2017  
 “On the art of communicating highly reliable short packets with low latency.”  
 PI: Natasha Devroye. Co-PIs: Hulya Seferoglu, Besma Smida, Daniela Tuninetti  
 Total amount: \$30,000
- NSF EARS-1443967. 01/01/2015 – 12/31/2018  
 “Collaborative Research: Let’s share CommRad – spectrum sharing between communications

and radar systems.”

PI: Daniela Tuninetti. Co-PI: Natasha Devroye, Mark Bell, Danilo Erricolo. 30%, 30%, 25%, 15% share, resp.

Total amount brought to UIC: \$525,00. Natasha Devroye’s share: \$210,000

- NSF CCF-1422511. 08/01/2014–07/31/2018  
“CIF: Small: Network capacity when some common information theoretic assumptions break down.”  
PI: Natasha Devroye. Co-PI: Daniela Tuninetti. 50%, 50% share.  
Total amount brought to UIC: \$500,000. Natasha Devroye’s share: \$250,000
- Dynetics 08/29/12 – 07/01/13  
“Fully Adaptive Radar.”  
PI: Natasha Devroye. (sole PI)  
Total amount brought to UIC: \$45,000, Natasha Devroye’s share: \$45,000
- NSF CCF CIF Small 1216825 01/01/2013 – 12/31/2016  
“Wireless relay networks: coding above capacity and exploiting structure.”  
PI: Natasha Devroye.  
Total amount brought to UIC: \$349,884, Natasha Devroye’s share: \$349,884
- Banff International Research Station, 5 day workshop proposal  
(all paid 5 day workshop for 42 participants; very competitive) 1/15/2012 – 1/20/2012  
“Interactive Information Theory.”  
PI: Natasha Devroye, co-PIs: Ashish Khisti, Ian Blake
- UIC WISER Fund. 03/2011 and 03/2010  
PI: Natasha Devroye.  
Total amount brought to UIC: \$1,045 (2011) and \$2,000 (2010),
- NSF CAREER 1053933. 01/01/2011– 12/31/2017  
“CAREER: Foundations for Two-way Communication Networks.”  
PI: Natasha Devroye.  
Total amount brought to UIC: \$449,924, Natasha Devroye’s share: \$449,924.
- AFOSR FA9550-10-1-0239. 06/15/2010–06/14/2013  
“Fundamental Bounds on Information Fusion with Focus on Waveform-based Intent Detection and Avoidance.”  
PI: Natasha Devroye.  
Total amount brought to UIC: \$284,122, Natasha Devroye’s share: \$284,122.
- NSF CCF-1017436. 09/01/2010–08/31/2014  
“CIF: Small: Fundamental Limits of Layered Wireless Networks.”  
PI: Natasha Devroye. Co-PI: Daniela Tuninetti. 50%, 50% share.  
Total amount brought to UIC: \$499,030, Natasha Devroye’s share: \$249,515,
- Alex Dytso, Ph.D. student, 5/1/2011 - 5/3/2016. Defended 05/2016. “Discrete Inputs in Gaussian Interference Networks: Performance Analysis and Approximate Optimality”. Supported by NSF 1017436 and 1422511, jointly supervised by Daniela Tuninetti. Currently postdoc at Princeton University.
- Yanying Chen, Ph.D. student, 11/1/2011 - 10/2015. Defended 06/2015. “Exploiting Structure in Cooperative Networks.” Supported by NSF 1216825. Currently employed at FICO.
- Diana Maamari, Ph.D. student, 11/1/2011 - 5/15/2015. Defended 03/ 2015. “Fundamental limits of Cognitive Networks and Cooperation in Millimeter Wave Networks”. Partially supported by

STUDENTS  
GRADUATED,  
POST-DOCS  
SUPERVISED

- NSF 1017436, 1216825, 1422511. Jointly supervised by Daniela Tuninetti. Currently at Huawei.
- Zhiyu Cheng, Ph.D. student, 1/1/2010 - 5/31/2014. Defended 03/2014. “Fundamental Limits of Wireless Two-way Full-duplex Communication Network.” Partially supported by NSF CAREER 1053933. Currently employed at Freescale.
  - Yiwei Song, Ph.D. student 9/1/2009 - 9/3/2013. Defended 09/ 2013. “Structured Codes and Cooperative Strategies in Wireless Relay Networks.” Supported by NSF CAREER 1053933 and NSF 1216825. Currently employed at A9, formerly SanDisk.
  - Dr. Pawan Setlur, Post-doc, 7/1/2011 - 01/15/2013. Supported by AFOSR FA9550-10-1-0239. Currently research contractor at Air Force Research Lab, Dayton, OH.
  - Andrea DiPaolo, Master’s thesis, supervised by Guido Masera and Natasha Devroye. Defended 05/2011. “VLSI Implementation of a Polar Code Decoder.”
  - Stefano Rini, Ph.D student. Main advisor: Daniela Tuninetti, co-supervisor: Natasha Devroye. Defended 11/2010. “On the Role of Cognition in Wireless Networks: an Information Theoretic Perspective.” Post-doc at Stanford and Technische Universitat Munchen. Currently Assistant Professor at the National Chiao Tung University.
  - Carlo Condo, Master’s thesis, supervised by Guido Masera and Natasha Devroye. Defended 06/2010. “A Parallel LDPC Decoder with Network on Chip as Underlying Architecture.”

STUDENTS AND  
POST-DOCS  
CURRENTLY  
ADVISING

- Meysam Asadi, Post-doc, 01/2017 - present, supported by NSF EAGER 1645381.
- Ahmad Salim, Post-doc, 06/15/2016 - present, supported by NSF EARS-1443967 and jointly supervised by Danilo Erricolo and Daniela Tuninetti.
- Narueporn Nartasilpa, Ph.D. student 8/15/2015 - present, partially supported by NSF EARS-1443967 and jointly supervised by Danilo Erricolo and Daniela Tuninetti.
- Konstantin Muranov, Ph.D. student, 1/1/2011 - present, jointly supervised by Besma Smida. Passed qualifying exam. Working full-time at Intel (formerly Motorola).
- Sara Shahi, Ph.D. student 9/1/2013 - present. Partially supported by NSF 101743,1422511, and NSF EARS-1443967. Jointly supervised by Daniela Tuninetti.
- Zohreh Ovaisi, Ph.D. student 6/15/2016 - present. Partially supported by COE Seed Fund. Jointly supervised by Besma Smida, Daniela Tuninetti and Hulya Seferoglu.
- Kenneth Palacio-Baus, Ph.D. student 8/15/2016 - present. Supported by NSF CAREER 1053933.

UNDERGRADUATE  
STUDENT RESEARCH

- Senior Thesis Design Advisor, Fall 2017. “XXX” by Brian Dina.
- Senior Thesis Design Advisor, Spring 2017. “The North Star,” by Shao-Yu Fu, Yechao Dai, and Philip Geluz
- Naveed Naimipour, Spring 2015. “Finding the corner points for mixed inputs in a Gaussian interference channel”
- Raul Custodio, Spring 2015. “Computing the chromatic number of a graph”
- Zaid Abuseini, Spring 2015. “Computing the independence number of a graph”
- Senior Thesis Design Advisor, Spring 2015. “Battery Powered Bluetooth People Counter,” by Kyle Schwartz, Erica Hampton, Mario Carpio and Andrey Vlasov.
- Senior Thesis Design advisor, Fall 2011. “Guitar Effects Pedal,” by David Majchrowski, Zenaido Vallejo, and Charles Hughes.
- Senior Thesis Design advisor, Spring 2011. “Wireless Proximity Detection,” by Matt Rice, Russell Teller, Cody Moy, and MattYap.
- Senior Thesis Design advisor, Fall 2010. “Remote Computer Startup Device,” by Andrew Suh, Tony Gallotta, and Daniel Ceh.

JOURNAL  
PUBLICATIONS  
CURRENTLY UNDER  
SUBMISSION

S. Shahi, D. Tuninetti and N. Devroye, “On the Capacity of the Slotted Strongly Asynchronous Channel with a Bursty User,” submitted to the *IEEE Transactions on Information Theory*, October 12, 2017.

N. Nartasilpa, A. Salim, D. Tuninetti and N. Devroye, “Communication System Performance and Design in the Presence of Radar Interference,” submitted to *IEEE Transactions on Communications*, September 7, 2017.

JOURNAL  
PUBLICATIONS

37. O. Dytso, R. Bustin, D. Tuninetti, N. Devroye, S. Shamai, H.V. Poor, “On the Minimum Mean  $p$ -th Error in Gaussian Noise Channels and its Applications,” to appear in the *IEEE Transactions on Information Theory*, 2017-2018 (available online).

NON-INTERVIEW  
INVITED TALKS

"One-Shot Zero Error Network Problems (with and without Solutions)" *invited to the SINE/CSL Seminar Series* at the University of Illinois at Urbana Champaign, March 13, 2017.

"One-Shot Zero Error Network Problems (with and without Solutions)" *invited to the Informal Systems Seminar at the Centre for Intelligent Machines* at McGill University, November 28, 2016.

"One-Shot Zero Error Network Problems (with and without Solutions)" *invited to the ECE Seminar Series* at the Illinois Institute of Technology, November 22, 2016.

"Discrete Inputs in Interference Channels, and the Zero-error Primitive Relay Channel" *invited to the Information Processing Group seminar* at the École Polytechnique Fédérale de Lausanne (EPFL), May 17, 2016.

"A quick introduction to information theory" *invited lecture in the Fundamentals of Informatics course (non-science major)* at Kyoto University, October 14, 2015.

"A touch of network information theory" *invited to the Kyoto University Informatics Seminar*, October 1, 2015.

"When should interference be treated as noise?" *invited at the Department of Electrical and Computer Engineering at the National University of Singapore*, August 27, 2015.

"An introduction to two-way networks," *invited to the Systems, Information and Learning Optimization (SILO) seminar series at the University of Wisconsin at Madison*, December 10, 2014.

"What information theory can (and cannot) tell us about spectrum sharing," *invited talk to Huawei University Days*, Rolling Meadows, IL, August 11-12, 2014.

"A few examples (and open problems) of when adaptation is useless in two-way networks" *invited*

*talk to the Workshop on Sequential and Adaptive Information Theory*, Montreal, Quebec, November 7-9, 2013.

“A (very brief) tour of three network information theory problems: two-way networks, cognitive networks, and lattice coding for relay networks” *invited to Intel*, host Greg Agami, Libertyville, IL, June 12, 2013.

“To adapt or not in two-way interference channels?” *invited to Workshop on Interference in Networks*, Boston University, June 30, 2012.

“Multi-user two-way channels: can adaptation be useless?” *invited to Northwestern University*, May 30, 2012.

“Exploiting scene knowledge in radar systems,” *AFRL Wright-Patterson Air Force Base*, hosts Murali Rangaswamy and Braham Himed, February 28, 2012.

“A quick introduction to information theory,” *invited to UIC Undergraduate Math Club Seminar*, February 22, 2012.

“Examples of when interaction is useless in multi-user two-way channels,” *invited to ITA@UCSD*, January 2012.

“Lattice codes for Gaussian relay channels,” *invited to the BIRS workshop Algebraic Structure in Network Information Theory*, August 14-19, 2011.

“Information theory’s role in going beyond cognitive radio,” *invited to the NSF Workshop on “Beyond Cognitive Radio” UIUC*, June 13-14, 2011.

“Structured interference-mitigation in two-hop networks,” *invited to ITA@UCSD*, February 2011.

“Lattices and list decoding for relay networks,” *invited to ICWS & Communications seminar, UIUC*, November 2010.

“Multi-user information theory and an example: the two-way relay channel,” *invited to UIC Statistics, and Computer Science Seminar Series*, October 2010.

“Lattice list decoding and applications to relay channels,” *invited to Allerton*, September 2010.

“Information theoretic limits of two-way relay networks,” *invited to Motorola*, June 24 2010.

“Information theoretic limits of cognitive networks,” *invited to University of Western Ontario*, May 2010.

“Fundamental Limits of Cognitive Networks,” *invited to Purdue University, Lecture on Science of Information*, February 2010.

“Inner and outer bounds on multi-pair bi-directional relay networks,” *invited to ITA@UCSD*, January 2010.

“Software-defined radio at UIC” given in collaboration with Ph.D. student Udayasree Yeddanapudi at *UIC’s Departmental Seminar Series*, December 2009.

“Fundamental Limits of Cognitive Networks: Tutorial and Tour” *invited to Motorola’s Technical Enrichment Matrix program*, Schaumburg, IL, July 10, 2009.

## TUTORIALS

Invited lecturer (3 hour lecture) at the *2016 North American School of Information Theory*.

“Structured codes in wireless relay networks,” *SYTACOM Research Workshop (plenary speaker)*, McGill, June 14-15, 2012.

“Communicating dialogues: an information theoretic view of the past and present advances and challenges in two-way communications,” *given at the 33rd IEEE Sarnoff Symposium in Princeton*, NJ, April 12, 2010.

“Information Theoretic Limits of Cognition and Cooperation in Wireless Networks ” *given at Wireless @ Virginia Tech’s 5th Annual Symposium on Wireless Personal Communications*, June 3-5, 2009.

## NON-TECHNICAL TALKS

“An academic path: me, my job and my research” *given to two final year Physics classes at the Young Women’s Leadership Charter School of Chicago* about my experiences getting into academia and wireless communications, November 2009.

“A Personal Timeline,” *given to UIC’s Society of Women Engineering* in their “Recipes for Success” series, October 2009.

## PATENTS

Work on cooperative communications at **Mitsubishi Electric Research Labs** led to the patent application “Asymmetric Cooperation in Downlink Cellular Networks with Relay stations”. Patent number: 7778598; Filing date: Jan 22, 2007; Issue date: Aug 17, 2010; Application number: 11/625,565

## SERVICE

### Associate Editorships:

- **Associate Editor** for the IEEE Transactions on Information Theory (Communications area), August 1, 2017 – present.
- **Associate Editor** for the IEEE Transactions on Cognitive Communications and Networking, September 5, 2015 – present.
- **Associate Editor** for the IEEE Journal on Selected Areas in Communications – Cognitive Radio Series, April 15, 2012 - April 15, 2015.
- **Associate Editor** for the IEEE Transactions on Wireless Communications (Resource Management and Multiple Access (RMMA) group), August 15 2011 - January, 2015.

### Professional outreach and memberships:

- **Senior member** of IEEE.
- **Affiliate** of the NSF Center for Science Information (CSoI), joined on October 20, 2015.
- **Founding member and interim chair** of the IEEE Information Theory Chicago Chapter, October 2015.
- **Secretary** of the Information Theory Society, 2011, 2012.

### Professional conference organization:

- **Recent results co-chair** for the 2018 International Symposium on Information Theory.
- **Information theory liaison** for 2015 IEEE Radar Conference.
- **Session chair** at ISIT 2016, “Degrees of Freedom in Wireless Networks”.
- **Session organizer** for the 2015 IEEE Radar Conference on “Radar and Information Theory,” May 12, 2015.
- **Chair** of the 2012 Banff Institute Research Station award for the proposed workshop “Interactive Information Theory,” (PI, award 12w5119) from Jan 15 - Jan 20, 2012.

- **Session organizer** for the 2012 IEEE International Symposium on Antennas and Propagation and USNC-URSI National Radio Science Meeting. Session titled “Cognitive radio – improvements through the integration of electromagnetic theory with communications theory,” July 8-14, 2012.
- **Publicity co-chair** of the IEEE Communications Theory Workshop in 2011, 2012, and 2014.
- **Co-chair** of the Cognitive Radio Networks Symposium of Globecom 2011.
- **Co-organizer** of the 2009 North American Summer School of Information Theory, held at Northwestern University, August 10-13, 2009.

**Technical Program Committee member for:**

- International Symposium on Information Theory (ISIT), 2013–2018
- International Conference on Communications (ICC), 2012, 2010
- Globecom Communications Theory Symposium, 2009, 2010, 2011
- APCC 2012, ISITA 2010, IWCMC 2010, PIMRC 2008, Crowncom 2008, ICCCN 2008, and VTC 2012, 2008.

**Reviewer** for the journals *IEEE Transactions on Information Theory*, *IEEE Transactions on Wireless Communications*, *IEEE Transactions on Communications*, *IEEE Communication Letters*, *IEEE Journal of Selected Areas of Communications*, *IEEE Transactions on Signal Processing*, *EURASIP Journal on Wireless Communications and Networking*, *SK Telecom Review*, *IEEE Transactions on Mobile Computing*, *IEEE Journal on Selected Topics in Signal Processing*, *IEEE Transactions on Vehicular Technology*

**Reviewer** for the *National Science Foundation*, the *Qatar National Research Fund*

**Women in Science + Engineering Activity:**

- Sole speaker and “role model” at Women in Engineering Summer Program event held at UIC on July 10, 2017. Spoke about the ECE department, Natashas own research and experience as a woman in engineering to a cohort of 30 female high school students.
- Participated in the February 25, 2017 UIC WIEP “Introduce a Girl of Engineering Day”, where 30-35 Chicago area female high school students visited and built things in UIC’s College of Engineering new Makerspace.
- **Panelist** for WISEST Workshop: Grant Writing Tips in STEM, February 10, 2017.
- **Panel leader** on the Information Theory Society Outreach Subcommittee’s Mentoring event, panel on “Navigating the Tenure Track”, held at ISIT 2016.
- **Women in Information Theory (WITHITS) co-chair**, January 2016 - present. Organized 2-3 events per year on WITHITS topics at the major international conferences. Started a WITHITS directory, <https://sites.google.com/site/womenininformationtheory/>
- Panelist for **Women in Science and Engineering** panel on how to “Setup and Supervise a Successful Lab.” April 10, 2015.
- Speaker and interviewer at **UIC College of Engineering Women in Engineering Scholarship Brunch**, aiming to recruit top female students into ECE, Saturday February 14 and 21, 2015 and Saturday February 18, 2017.
- Panelist on “**Surviving the Tenure Track**” held at the 2014 International Symposium on Information Theory.
- Speaker and panelist at the **2012 WISE End of Year Celebration**, April 4, 2012.
- Panelist for the **2012 WISE panel on Applying for an NSF CAREER Award**, May 14, 2012.

## UIC SERVICE

- Director of Undergraduate Studies, ECE department, 2016- present
- CoE Educational Policy Committee (EPC), 2016-2017, 2017-2018
- UIC ECE Advisory Committee 2013-2014, 2014-2015, 2016-2017, 2017-2018
- UIC Senate, Fall 2013 - Fall 2016
- UIC Student Research Forum Faculty Judge 2013
- Honors College Faculty Fellow, January 2012 - present
- Honors College Scholarship Committee, August 2014 - present
- Member of SEO 1000 Renovations committee, 2012
- Member of Hiring committee, 2010-2011, 2014
- Member of Curriculum Revision committee, Communications branch, 2011
- Member of Graduate committee, 2009-2011, 2013-2014
- Member of Undergraduate Committee, 2011-2012. Chair of it 2016-2017, 2017-2018.
- Member of Student Scholarships Committee 2012-2013, 2013-2014, 2014-2015, 2016-2017, 2017-2018
- Member of Computer + Web Committee, 2009 - 2012
- Member of Grievance Committee, 2012-2014
- ECE Seminar Series Chair Fall 2014, Co-chair Spring 2015
- ECE Recruitment committee 2014-2015, 2016-2017, 2017-2018
